Subject: FW: Time to Process Permit Report
Attachments: FIMFIA PROJECT GAP REPORT EXCEL FILE 12-20-11.xlsx

Hi Rizgar,

Attached are results of a RCRAInfo data query that I received from my HQs based on older data that was run all the way thru 2010 for all 50 states (10 regions) This data shows that it took 4.1 years to issue a permit and 4.3 years to issue a post closure permit.

Please see the attached excel file (tabs 2 and 4) that give the summary for the permits and post closure permits respectively.

I will work with Elizabeth Janes to see if she can run a similar inquiry for the past 10 years as you requested.

Best regards,

Mike Zabaneh, P.E.

Subject: RE: Time to Process Permit Report

Hi Mike,

I received some info from my HQs based on older data that was run all the way thru 2010 for all 50 states (10 regions) that shows that it took 4.1 years to issue a permit and 4.3 years to issue a post closure permit. This is from data available in the RCRAInfo "data gap report".

Please see the attached excel file (tabs 2 and 4) give the summary for the permits and post closure permits respectively.

I am curious to find out if your contractor Eco has come up with anything to compare this to.

Best regards,

Subject: Time to Process Permit Report

Hi Mike,

As we discussed on the phone yesterday. DTSC would like to get a report of time to process permits in other states. This data exists in your RCRAinfo database systems.

As there is no "Canned" reports available for this in RCRAinfo, we would like to see if someone in EPA could pull a report that could provide this data. For this report, we are looking for the following:

- 1) Time frame for Permits/Post Closure Permits issued in the last five years
- 2) The data should be for all 50 states in RCRAinfo
- 3) Reports should include Call in letters and Part B received dates (OP010, PC010 & OP020, PC020) as starting points for the permit
- 4) Reports should include End Point dates should be Permit Issued and Permit Effective (OP 200, PC 200 & OP205, PC 205)

Please let me know what you find after you meet with your experts. As we also talked about, I will try talking with Eco on what they can do. Thanks.

Michael Choe, P.E.
